

Presentation :

Artificial intelligence (AI) is arguably the most exciting field in robotics. It's certainly the most controversial: Everybody agrees that a robot can work in an assembly line, but there's no consensus on whether a robot can ever be intelligent. In this CHALLENGE The robot is required to do tasks based on AI. The tasks will be given the day of the competition.

Notes:

- You will have time to prepare what is requested.
- You will have the necessary materials to do what is requested.

STAY TUNED..
